THE CHIQUÉ
COLLECTION

Style with very good timing

A little attitude. Precisely timed.

Chique strips the clock face back to its essentials, then gives those essentials a confident graphic twist.

A crisp Arabic chapter ring defines the time, while the red hands cut across it with clarity and character. Minimal in construction, but certainly not anonymous.

Two colours. One strong, immediately
recognisable composition.

DIAL 760mm diameter

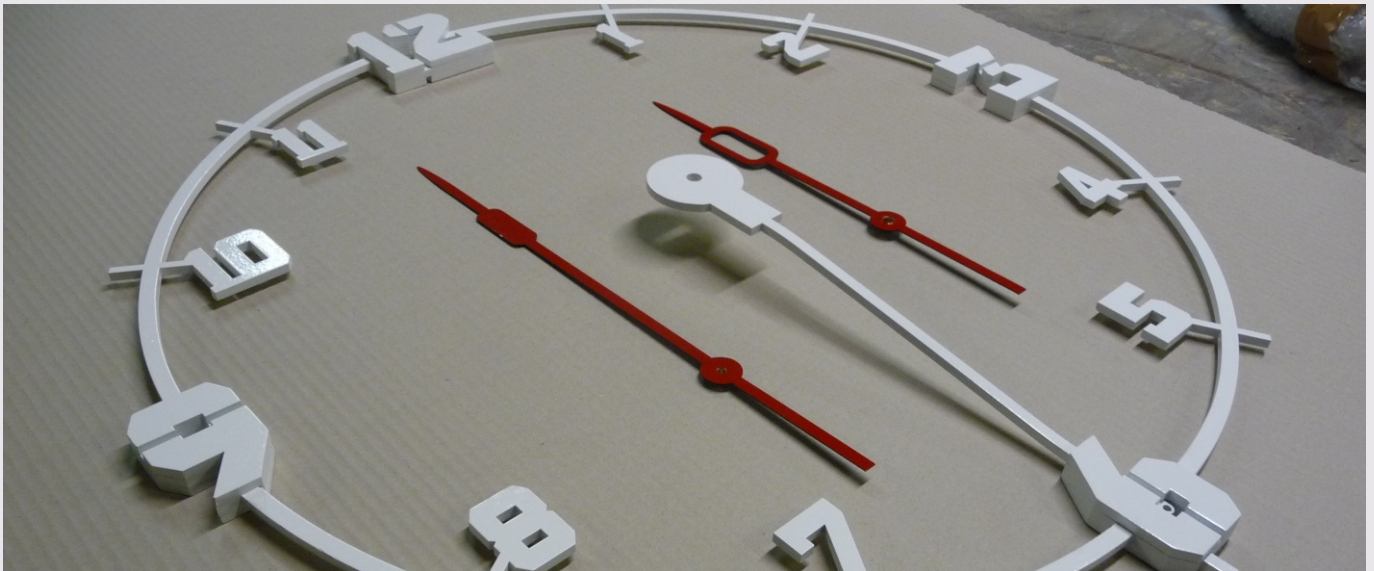

OTHER COLOURS ON REQUEST

Cut with **purpose.**

The chapter design is waterjet cut from 5 mm aluminium, giving the numerals, markers and outer ring crisp edges and a purposeful physical depth.

The construction is deliberately exposed. Rather than relying on a conventional dial with numerals on it, Chique makes the numerals themselves a part of the object.

Simple face. **Serious clockwork.**

Behind the graphic design sits a dependable mains powered mechanism, with automatic seasonal time changes and correction following a power interruption.

SEASONAL TIME CHANGE

Made to be noticed.

At 760 mm diameter, Chique is large enough to become a defining element without overpowering the room.

Its clear geometry works particularly well in hospitality interiors, studios, contemporary homes, and distinctive commercial spaces.

CLEAN | CONFIDENT | INDIVIDUAL

A numbered work.

Every numbered Chique Collection clock is accompanied by a certificate of authenticity and a discreet engraved brass plaque.

Together they record the design, finish, serial or edition number, date of completion and the people responsible for the piece.

The clock is protected in a purpose made foam lined wooden crate, ready for delivery to its new setting.

MADE TO MARK TIME
AND MADE TO LAST

Time is our passion.
