

Hora
TEMPUS

THE CINGO
COLLECTION
Time in motion

The face that moves.

Cingo turns the familiar clock face into something unexpected. Instead of conventional hands, its numbered time ring rotates around a fixed reading point.

The result is quietly kinetic: a precise timepiece and a sculptural object in one clear, contemporary form.

Hora
TEMPUS

A new way to read time.

The outer 24 hour chapter ring makes a complete revolution each day. The fixed marker provides the point of reference.

DIAL 610mm diameter

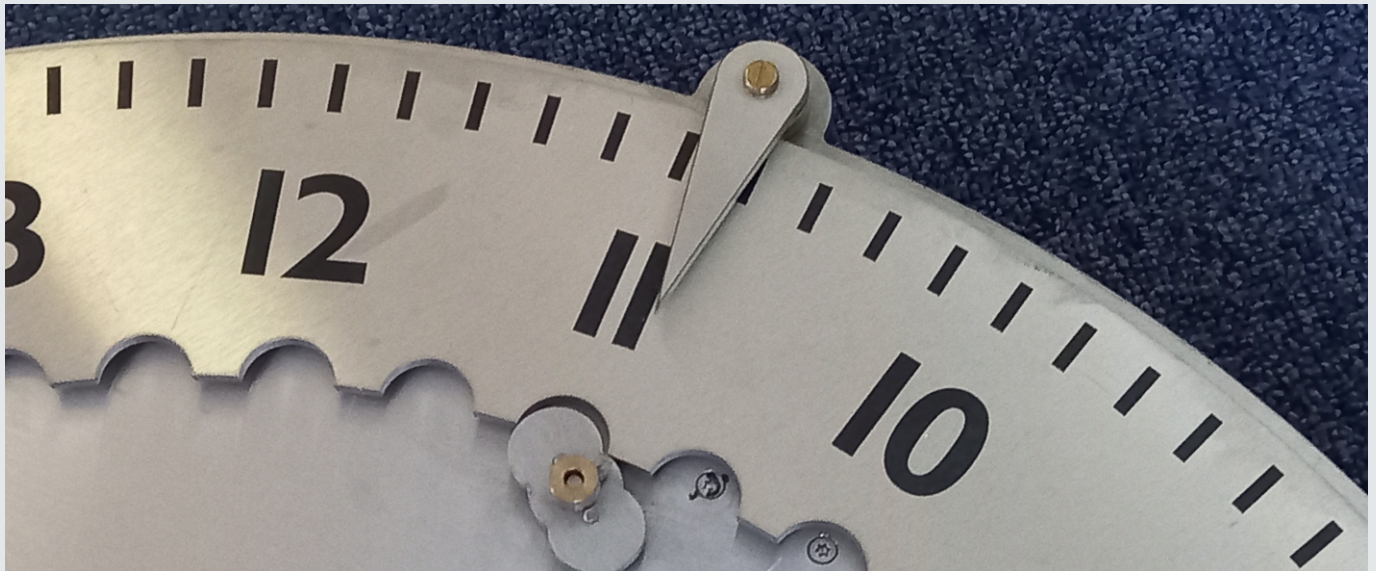

OTHER SIZES AND MATERIALS
AVAILABLE ON REQUEST

Stainless steel, **shaped with intent.**

The dial is precision cut from 3mm stainless steel and finished with a soft satin grain surface. Black sign written Arabic chapters create an exact, highly legible contrast.

Its pared back construction lets material, proportion and movement do the talking.

Engineered for effortless accuracy.

Cingo combines its unconventional display of time with a dependable mains powered mechanism, automatic seasonal changes and correction after a power interruption.

SEASONAL TIME CHANGE

A measured presence.

At 610mm diameter, Cingo anchors a room with its presence, while retaining an elegant visual lightness.

Its calm satin brushed stainless steel finish suits modern homes, galleries, hospitality interiors and considered commercial spaces.

PRECISE | QUIET | DISTINCTIVE

A numbered work.

Every numbered Cingo Collection clock is accompanied by a certificate of authenticity and a discreet engraved brass plaque.

Together they record the design, finish, serial or edition number, date of completion and the people responsible for the piece.

The clock is protected in a purpose made foam lined wooden crate, ready for delivery to its new setting.

MADE TO MARK TIME
AND MADE TO LAST

Time is our passion.
