COMMISSION
A TIMEPIECE
Your time. Your story. Your clock

An idea given time.

Alongside our limited edition collections, Hora Tempus welcomes private commissions from individuals, artists, interior designers, architects and organisations seeking a truly individual timepiece.

A commission may begin with a particular interior, a meaningful story, an existing work of art or simply the desire to create something that has never existed before.

Hora
TEMPUS

Design, develop and craft.

Imagination, technical knowledge and skilled making brought together in one considered object.

DESIGNED AND MADE IN BRITAIN

From first thought to finished timepiece.

THE CONVERSATION

We begin by understanding the idea, its story and the setting in which the clock will live.

CREATIVE DIRECTION

Scale, form, materials, colour and character are explored before a preferred direction is agreed.

DESIGN DEVELOPMENT

The concept is refined into a clock that balances visual intent with proportion, movement and practical detail.

CRAFT AND MANUFACTURE

Precision processes and traditional workshop skills are combined to make, shape and finish each component.

ASSEMBLY AND TESTING

The completed timepiece is assembled, inspected and tested before leaving our workshop.

No fixed material.

No fixed scale.

The timepiece is developed around the idea, not confined by a predetermined format.

100mm to 5,000mm Diameter

GLASS, METAL, WOOD AND MORE....

BATTERY OR MAINS POWERED

SPECIALIST TIMING CONTROL

Made for its setting. Made for its owner.

From a discreet personal piece to an architectural statement, every proportion and finish is considered in relation to the space around it.

Natural materials, crafted surfaces and individual details allow the completed clock to feel entirely at home, while remaining unmistakably its own.

INDIVIDUAL | CONSIDERED | ENDURING

A singular work.

Whether you have a fully developed idea or the beginnings of one, we would be delighted to explore what is possible.

Every bespoke Hora Tempus clock is accompanied by a certificate of authenticity and a discreet engraved brass plaque.

Together they record the materials, finish, serial number, date of completion and the people responsible for creating the piece. They form a lasting record of its origin and individual provenance.

The clock will be protected in a purpose made foam lined wooden crate, ready for delivery to its new setting.

MADE TO MARK TIME
AND MADE TO LAST

Time is our passion.
