TEMPUS

THE SINO-JAPANESE COLLECTION

Characters marking time

A different language for time.

Sino-Japanese numerals are developed from characters of Chinese origin and offer a distinctive alternative to familiar Arabic or Roman numerals.

Set against a hand painted black face, the gilded characters form a measured composition that feels both historic and strikingly contemporary.

Flora
TEMPUS

Brass and gold in balance.

Solid brass, black paint and traditional gilding are brought together with deliberate restraint. The result is compact in scale, yet rich in detail and presence.

OTHER SIZES ON REQUEST

Painted black. Gilded by hand.

The dial is formed from 2mm brass, giving the compact clock a reassuring material quality. Its front surface is painted black before the chapters and details are finished in gold leaf.

The contrast is purposeful: a deep, quiet ground supporting characters that catch and return the light.

Compact form. **Precise timekeeping.**

A high powered quartz movement provides dependable battery operation. Time adjustments are completed neatly from the rear, leaving the carefully finished face uninterrupted.

SEASONAL TIME CHANGE

A small clock with real presence.

At 180 mm diameter, Sino-Japanese is designed for a desk, console or shelf, displayed on its clear glass stand.

Its compact form works particularly well in considered interiors, where material, proportion and individual details are allowed to speak.

COMPACT | GILDED | DISTINCTIVE

A numbered work.

Every numbered Sino-Japanese Collection clock is accompanied by a certificate of authenticity and a discreet engraved brass plaque.

Together they record the design, finish, serial or edition number, date of completion and the people responsible for the piece.

The clock is protected in a purpose made foam lined wooden crate, ready for delivery to its new setting.

MADE TO MARK TIME
AND MADE TO LAST

Time is our passion.
