THE PRISM
COLLECTION
Light cutting form

Geometry catches the light.

Prism surrounds a clear white clock face with a moulded geometric frame, made from repeating facets that respond differently as the light changes.

The contrast of black Arabic chapters, white dial and warm gilded surround creates a compact timepiece with confident visual depth.

Flora
TEMPUS

Form, light and shadow.

Every facet creates its own highlight and shadow. Together they form a precise, repeating rhythm around the clocks bezel, adding richness without compromising clarity.

BEZEL 300mm diameter

BEZEL 60mm deep

FACET | LIGHT | RHYTHM

A frame shaped by facets.

The prismatic surround is fully moulded in fibreglass, allowing the small geometric facets to remain crisp and consistent around the complete circumference.

A clean white face, sign written with Arabic chapters, keeps the time immediately readable within the more expressive frame.

Compact form. **Reliable timekeeping.**

A high powered quartz movement provides dependable battery operation.

Time changes are completed simply from the rear of the clock.

CLOCK MECHANISM

MANUAL

SEASONAL TIME CHANGE

Compact. Full of character.

The standard clock uses concealed wall bracket, allowing the dial to remain the focus.

For individual projects, we can discuss colour, finish, scale, illumination and mounting requirements, subject to technical review.

GEOMETRIC | REFINED | DISTINCTIVE

A numbered work.

Every numbered Prism Collection clock is accompanied by a certificate of authenticity and a discreet engraved brass plaque.

Together they record the design, finish, serial or edition number, date of completion and the people responsible for the piece.

The clock is protected in a purpose made foam lined wooden crate, ready for delivery to its new setting.

MADE TO MARK TIME
AND MADE TO LAST

Time is our passion.
